PERSONAL SUMMARY

As a 21-year-old individual. I am dedicated to continuous learning & skill development. Striving to lead a fulfilling life, I pursue my passions, ensuring productivity and personal growth along the way.

ABOUT ME

I possess strong development skills in the field of development. Despite of programming skills, I have the knowledge of Graphic designing. I am a versatile learner, I have the prosperity to learn new technologies within a short time that would assets me as well as the company.

PROJECTS

Event management system (PHP)

- Developed intermediate website which provides all the services for various types of events. For the backend of this project, I used PHP technology.
    - **Technology used**: HTML, CSS, JS, MySQL & PHP

Event management system (Java)

- This is the advance version of the same system I created in PHP technology. I added more features in admin panel. For the backend of this project, I have used Java and Servlet technology.
    - **Technology used**: HTML, CSS, JS, MySQL, Jquery, Java & Servlet

Real Estate system (Java)

- Developed this small scoped website which can be used for real estate purpose for college project. Java technology was used in backend.
    - **Technology used**: HTML, CSS, JS, MySQL, Java

Real Estate system (Asp.Net)

- Added some features and used different technology in the same system. .Net technology was used in backend
    - **Technology used**: HTML, CSS, JS, MySQL, .Net

Cafe Management system (Java)

- Developed this small scaled android application. Using this application we can order food and drinks online. Backend was developed using java
    - **Technology used**: SQLite & Java

L A N G U A G E S
